DONOR CONCEPTION NETWORK

WHO ARE WE AND WHY DO YOUR CLIENTS NEED US?

The Donor Conception Network provides essential support and resources to donor conception families, helping them to navigate the complex world of fertility treatment. We are a leading authority in the donor conception community, with over 2000 members and around 7000 unique monthly visits to our website. We are regularly contacted by people needing specialist support on a range of donor conception related issues.

Our members and those visiting our website include anyone using gamete donation, sometimes with surrogacy. They may be heterosexual or same-sex couples or single people. Many are having treatment in fertility clinics but some are conceiving using private arrangements outside of licensed clinics. Part of our job is to direct them to knowledgeable professionals, including lawyers who can offer sound advice on all the legal issues surrounding third party reproduction.

By joining our Lawyer Supporter Scheme as a specialist in this area, you are helping ensure that we are connecting people with the most dedicated family law firms.
